EXP-8:

To create an educational infographic using Figma explaining the concept, components, structure, coverage areas, and services of a Public Land Mobile Network (PLMN).

Aim

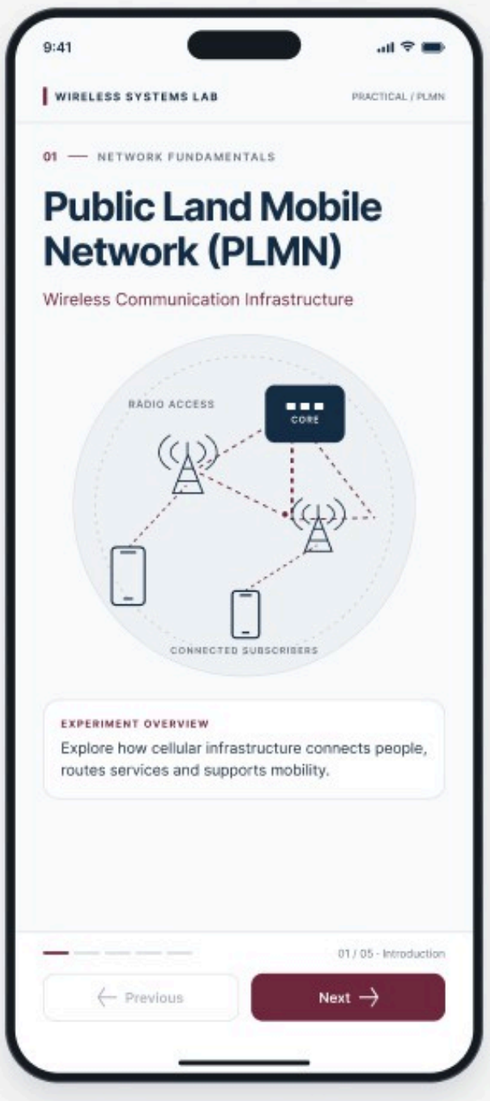

To create an educational infographic using Figma explaining the concept, components, structure, coverage areas, and services of a Public Land Mobile Network (PLMN).

Algorithm

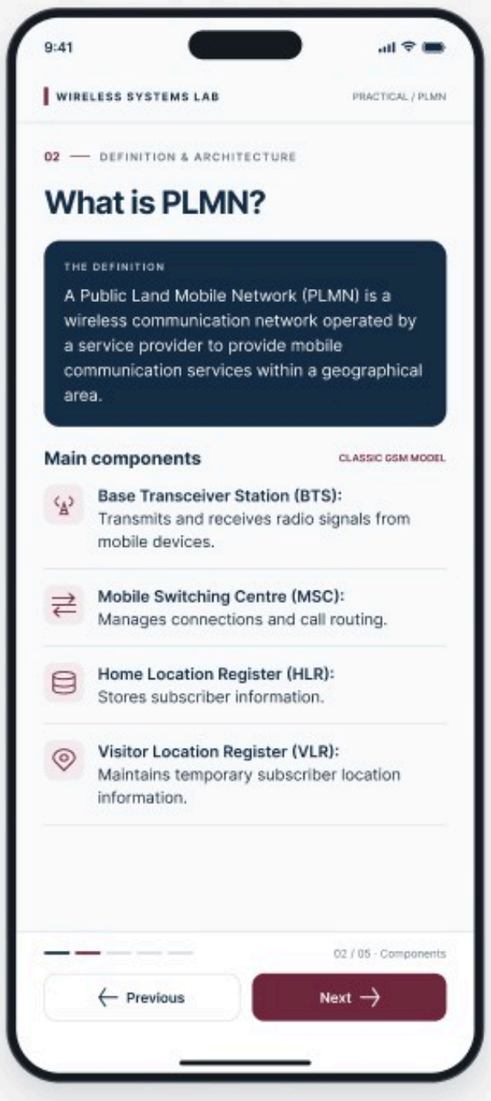

1. Open Figma and create a new design file.
2. Create five mobile infographic screens.
3. Design the first screen with the PLMN title and introduction.
4. Explain the definition and main components of PLMN.
5. Illustrate cellular structure and network coverage.
6. Describe network operators and communication services.
7. Create a final conclusion screen.
8. Add Next and Previous navigation buttons.
9. Connect all screens using prototype interactions.
10. Preview and verify the design.

Design

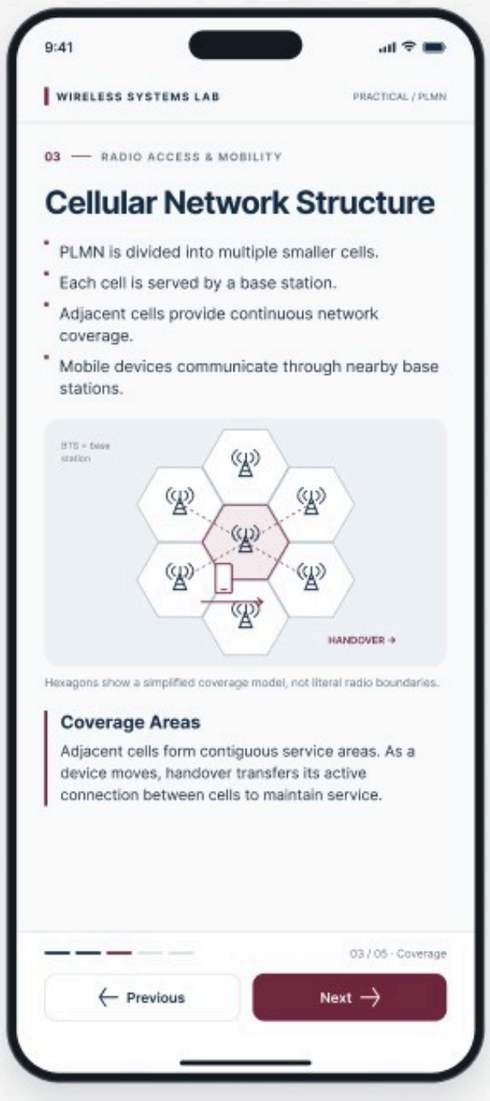

PLMN introduction

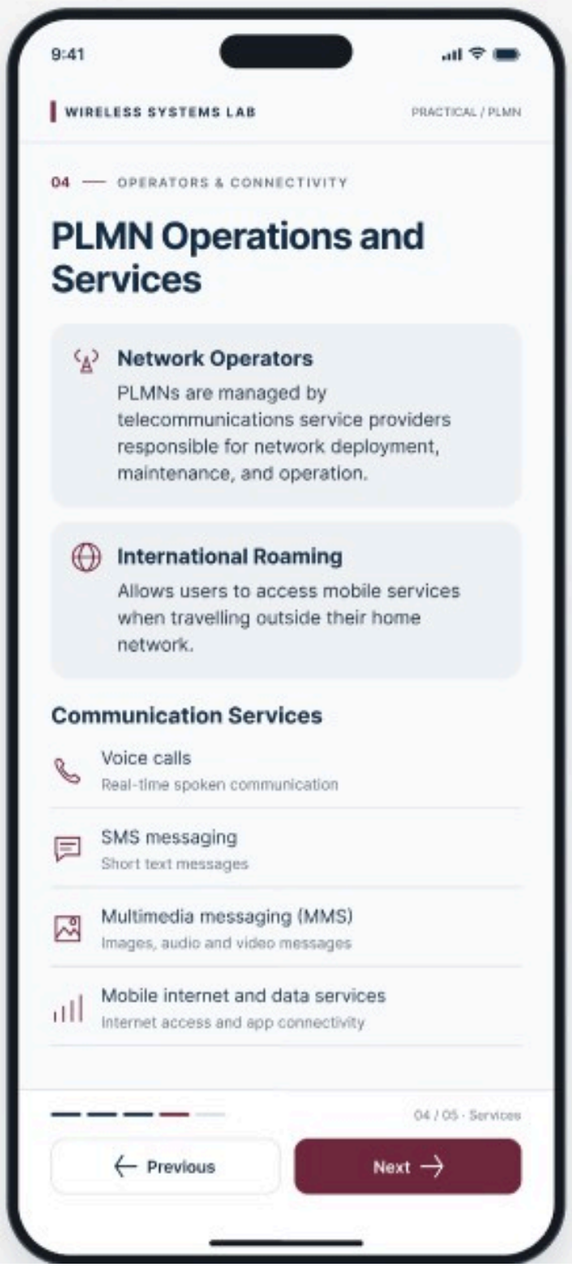

PLMN definition and components

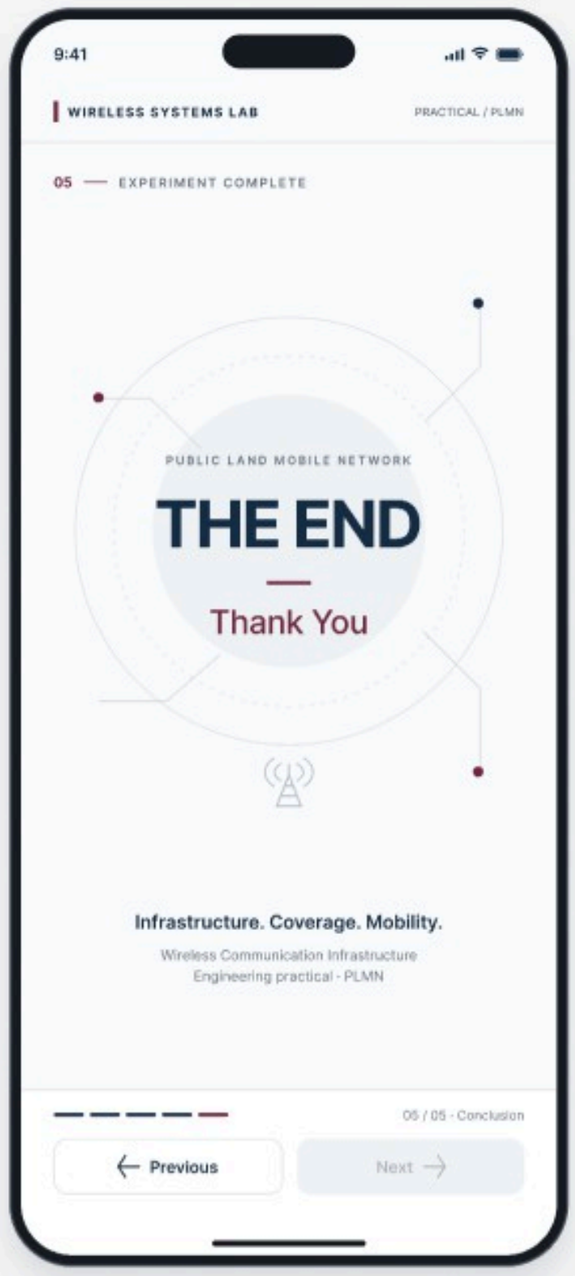

Cellular structure and coverage

PLMN operations and services

PLMN conclusion

Result

Successfully created a five-screen interactive infographic in Figma explaining PLMN, its components, cellular structure, network coverage, operators, and communication services.
